

FARMI[®] FOREST

K230

.....
Felling Head for Forest Cranes

FEATURES

- Suitable for FARMIFOREST cranes starting from model HK 4067
- Light and efficient
- Excellent loading properties
- Efficient guillotine cutting, 23cm
- Easy installation, no additional hydraulics or hosing
- Radio control option

SUITABLE FOR

- Felling and loading of single trees
- Delimiting before felling
- Clearing of bushes and roadsides

Effortless felling and loading

FARMI K models are reliable combinations of a felling head and a loading grapple. FARMI K230 is quick and easy to install in the place of the tractor's own loading grapple or harvester head to be used to felling, collecting, cutting and loading trees, bushes and branches. FARMI K230 only weighs 200 kg but is capable of cutting up to 23 cm thick trees.

Strong and reliable guillotine

MAXIMUM CUTTING POWER

- **Two-phase cutting:**
(1.) Grippers close around the tree
(2.) Cutting cylinder pushes the blade through the tree
- **Max. cutting 23 cm**

ACCESSORIES

- **Radio control with various control options**
- **Extension boom for 5-8 ton excavator, 1 m reach**
- **Cejn Flat face quick couplings**
- **Baltrotors GR46 rotator**
- **Link for the rotator**

TECHNICAL SPECIFICATIONS	FARMI K230
Weight	200 kg
Height in felling position	70 cm
Grapple opening	60 cm
Cutting diameter, force and time	Ø 23 cm / 95 kN / 1,8 s
Required pressure	170-200 bar
Required oil flow	40-70 l/min
Warranty	12 months or 1000 hours
Control system	Cable control with 3 buttons
Voltage	12 or 24 V
